

Dear Parents,

May 2020

I can hardly believe that another school year has come and gone. Your children were truly a delight to teach, and I thank you from the bottom of my heart for sharing them with us.

This summer's Math work will be the "Practice Sets" of Lessons listed below from Saxon Math Course 1.

These lessons are designed by Saxon Math as review lessons. By completing them over the summer, your child's teacher will be able to devote class time during the upcoming school year to newer, more challenging content. **The "Practice Sets" (not the "Written Practices") from the lessons listed are the first homework assignment due upon our return in August.** Additionally during the first week of school your child will take a written assessment over these lessons to determine his or her mastery.

To be best prepared for Saxon Math Course 1 when we return in August, the following are a list of skills that I would encourage your child to review over the summer.

SUMMER MATH - SAXON MATH COURSE 1 "PRACTICE SETS":

- Lesson 1 - Adding and Subtracting Whole Numbers and Money, Fact Families
- Lesson 2 - Multiplying and Dividing Whole Numbers and Money, Fact Families
- Lesson 3 - Unknown Numbers in Addition and Subtraction
- Lesson 4 - Unknown Numbers in Multiplication and Division
- Lesson 6 - Fractional Parts
- Lesson 8 - Perimeter
- Lesson 12 - Place Value Through Trillions, Multi-Step Problems
- Lesson 15 - Problems About Equal Groups
- Lesson 16 - Rounding Whole Numbers, Estimating
- Lesson 17 - Number Line: Fractions and Mixed Numbers
- Lesson 19 - Factors, Prime Numbers
- Lesson 20 - Greatest Common Factor

Please feel free to contact me via email at mnowlin@stbernard.org with any questions. I hope you have a wonderful and safe summer.

Sincerely,

Ms. Nowlin
